Independent Auditor's Report

Board of Directors Cimarron Municipal Utility District Harris and Fort Bend Counties, Texas

Opinions

We have audited the accompanying financial statements of the governmental activities and each major fund of Cimarron Municipal Utility District (the "District"), as of and for the year ended February 28, 2025, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and each major fund of Cimarron Municipal Utility District, as of February 28, 2025, and the respective changes in financial position thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Emphasis of Matter

As discussed in Note 3 to the financial statements, the District implemented GASB Implementation Guide 2021-1, Question 5.1 during the current fiscal year. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Board of Directors Cimarron Municipal Utility District Harris and Fort Bend Counties, Texas

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Board of Directors Cimarron Municipal Utility District Harris and Fort Bend Counties, Texas

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The Texas Supplementary Information schedules are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Texas Supplementary Information schedules are fairly stated in all material respects in relation to the basic financial statements as a whole.

Management's Discussion and Analysis

(This page intentionally left blank)

Using this Annual Report

This section of the financial report of Cimarron Municipal Utility District (the "District") provides a narrative discussion and analysis of the financial activities of the District for the fiscal year ended February 28, 2025. This analysis should be read in conjunction with the independent auditor's report and the basic financial statements that follow this section.

In addition to this discussion and analysis, this annual report consists of:

- The District's basic financial statements;
- Notes to the basic financial statements, which provide additional information essential to a full understanding of the data provided in the financial statements;
- Supplementary information required by the Governmental Accounting Standards Board (GASB) concerning the District's budget; and
- Other Texas supplementary information required by the District's state oversight agency, the Texas Commission on Environmental Quality (TCEQ).

Overview of the Financial Statements

The District prepares its basic financial statements using a format that combines fund financial statements and government-wide statements onto one financial statement. The combined statements are the *Statement of Net Position and Governmental Funds Balance Sheet* and the *Statement of Activities and Governmental Funds Revenues, Expenditures and Changes in Fund Balances.* Each statement contains an adjustments column which quantifies the differences between the government-wide and fund level statements. Additional details of the adjustments are provided in Note 2 to the basic financial statements.

Government-Wide Financial Statements

The focus of government-wide financial statements is on the overall financial position and activities of the District, both long-term and short-term. The District's government-wide financial statements consist of the *Statement of Net Position* and the *Statement of Activities*, which are prepared using the accrual basis of accounting. The *Statement of Net Position* includes all of the District's assets, deferred outflows of resources, liabilities, and deferred inflows of resources with the residual reported as net position. Over time, changes in net position may provide a useful indicator of whether the financial position of the District as a whole is improving or deteriorating.

Accounting standards establish three components of net position. The net investment in capital assets component represents the District's investments in capital assets, less any outstanding debt or other borrowings used to acquire those assets. Resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities. The restricted component of net position consists of financial resources that are restricted for a specific purpose by enabling legislation or external parties. The unrestricted component of net position represents resources not included in the other components.

The *Statement of Activities* reports how the District's net position has changed during the fiscal year. All revenues and expenses are included on this statement, regardless of whether cash has been received or paid.

Fund Financial Statements

The fund financial statements include the *Governmental Funds Balance Sheet* and the *Governmental Funds Revenues, Expenditures and Changes in Fund Balances.* The focus of fund financial statements is on specific activities of the District rather than the District as a whole, reported using modified accrual accounting. These statements report on the District's use of available financial resources and the balances of available financial resources at the end of the year. Except for the General Fund, a specific fund is established to satisfy managerial control over resources or to satisfy finance-related legal requirements established by external parties, governmental statutes or regulations.

For further discussion on the government-wide and fund financial statements, please refer to Note 1 in the financial statements.

Financial Analysis of the District as a Whole

The District's net position at February 28, 2025, was \$18,968,794. A comparative summary of the District's overall financial position, as of February 28, 2025, and February 29, 2024, is as follows:

	2025	2024
Current and other assets	\$ 20,106,035	\$ 17,543,102
Capital assets	19,497,288	19,478,342
Total assets	39,603,323	37,021,444
Total deferred outflows of resources	262,021	293,234
Current liabilities	2,024,480	2,121,707
Long-term liabilities	18,872,070	20,384,472
Total liabilities	20,896,550	22,506,179
Net Position		
Net investment in capital assets	431,192	(917,716)
Restricted	2,045,034	2,257,105
Unrestricted	16,492,568	13,469,110
Total Net Position	\$ 18,968,794	\$ 14,808,499

During the current fiscal year, the District implemented GASB Implementation Guide ("GASBIG") 2021-1, Question 5.1, which requires the capitalization of a group of individual assets that are below the capitalization threshold when the cost of the acquisition of the assets in the aggregate is significant. In accordance with this standard, the District recognized, as infrastructure capital assets, water meters that were previously expensed in prior fiscal years, net of related accumulated depreciation, as of the beginning of the current fiscal year. Prior year data has not been restated to include values for these infrastructure assets and, as a result, the presentation of prior year data as it relates to these assets is not consistent with the current year presentation (see Notes 3 and 6).

The total net position of the District increased during the current fiscal year by \$3,770,057. A comparative summary of the District's *Statement of Activities* for the past two fiscal years is as follows:

	2025		2025 2024	
Revenues				
Water and sewer service	\$	2,178,288	\$	2,147,498
Property taxes, penalties and interest		4,305,906		4,741,760
City of Houston sales tax rebates		1,171,261		1,183,546
Regional water authority fees		2,025,205		2,064,627
Other		3,278,356		3,609,392
Total revenues		12,959,016	_	13,746,823
Expenses				
Current service operations		7,938,488		8,502,132
Debt interest and fees		724,929		784,640
Depreciation		525,542		439,282
Total expenses		9,188,959		9,726,054
Change in net position		3,770,057		4,020,769
Net position, beginning of year (2025 restated)		15,198,737		10,787,730
Net position, end of year	\$	18,968,794	\$	14,808,499

As previously noted, the District implemented GASBIG 2021-1, Question 5.1 during the current year and, as a result, has restated its beginning net position for the current fiscal year. Prior year data is not consistent with current year data due to the recognition of certain capital assets and the related accumulated depreciation at the beginning of the current fiscal year (See Notes 3 and 6).

Financial Analysis of the District's Funds

The District's combined fund balances, as of February 28, 2025, were \$19,139,844, which consists of \$17,296,184 in the General Fund and \$1,843,660 in the Debt Service Fund.

General Fund

A comparative summary of the General Fund's financial position as of February 28, 2025, and February 29, 2024, is as follows:

	 2025		2024
Total assets	\$ 17,847,222	\$	15,029,386
Total liabilities	\$ 325,701	\$	425,096
Total deferred inflows	225,337		201,482
Total fund balance	 17,296,184		14,402,808
Total liabilities, deferred inflows and fund balance	\$ 17,847,222	\$	15,029,386

A comparative summary of the General Fund's activities for the current and prior fiscal year is as follows:

	 2025	 2024
Total revenues	\$ 8,512,727	\$ 8,665,089
Total expenditures	(5,619,351)	 (6,245,800)
Revenues over expenditures	\$ 2,893,376	\$ 2,419,289

The District manages its activities with the objectives of ensuring that expenditures will be adequately covered by revenues each year and that an adequate fund balance is maintained. The District's primary financial resources in the General Fund are from a property tax levy, the provision of water and sewer services to customers within the District and City of Houston sales tax rebates. Financial resources are influenced by a variety of factors each year:

- Property tax revenues are dependent upon assessed values in the District and the maintenance tax rate set by the District. While assessed values in the District increased from the prior year, property tax revenues decreased because the District decreased the maintenance component of the levy.
- Water, sewer and regional water authority fees are dependent upon customer usage, which fluctuates from year to year as a result of factors beyond the District's control.
- Sales tax rebates received from the City of Houston under a Strategic Partnership Agreement are dependent on consumer spending at retail stores located within the District's boundaries and will fluctuate from year to year.

Debt Service Fund

A comparative summary of the Debt Service Fund's financial position as of February 28, 2025, and February 29, 2024, is as follows:

	2025		 2024
Total assets	\$	2,053,599	\$ 2,286,092
Total liabilities	\$	8,565	\$ 28,987
Total deferred inflows		201,374	171,940
Total fund balance		1,843,660	 2,085,165
Total liabilities, deferred inflows and fund balance	\$	2,053,599	\$ 2,286,092

A comparative summary of the Debt Service Fund's activities for the current and prior fiscal year is as follows:

	2025	 2024
Total revenues	\$ 2,016,775	\$ 2,213,261
Total expenditures	(2,258,280)	 (2,228,711)
Revenues under expenditures	\$ (241,505)	\$ (15,450)

The District's financial resources in the Debt Service Fund in both the current and prior fiscal year are from property tax revenues. The difference between these financial resources and debt service requirements resulted in a decrease in fund balance each year. It is important to note that the District sets its annual debt service tax rate as recommended by its financial advisor, who monitors projected cash flows in the Debt Service Fund to ensure that the District will be able to meet its future debt service requirements.

Joint Water Plant Fund

The District uses a special revenue fund to account for costs associates with the operation and maintenance of water plant no. 3 jointly owned by the District and Harris – Fort Bend Counties Municipal Utility District No. 3 (the "Joint Water Plant"). A comparative summary of the Joint Water Plant Fund's financial position as of February 28, 2025, and February 29, 2024, is as follows:

	 2025	 2024
Total assets	\$ 850,116	\$ 797,491
Total liabilities	\$ 850,116	\$ 797,491

A comparative summary of activities for the Joint Water Plant Fund's current and prior fiscal year is as follows

	 2025	 2024
Total revenues	\$ 2,376,225	\$ 2,793,247
Total expenditures	(2,376,225)	 (2,793,247)
Revenues over/(under) expenditures	\$ -	\$ -

Revenues in the Joint Water Plant Fund primarily consist of charges to participants. The amount the District charges is based upon the actual cost of providing services. Consequently, revenues will equal expenditures each year.

General Fund Budgetary Highlights

The Board of Directors adopts an annual unappropriated budget for the General Fund prior to the beginning of each fiscal year. The Board did not amend the budget during the fiscal year.

Since the District's budget is primarily a planning tool, actual results varied from the budgeted amounts. Actual net change in fund balance was \$473,374 greater than budgeted. The *Budgetary Comparison Schedule* on page 38 of this report provides variance information per financial statement line item.

Capital Assets

Capital assets held by the District at February 28, 2025, and February 29, 2024, are summarized as follows:

	2025	2024
Capital assets not being depreciated		
Land and improvements	\$ 8,124,046	\$ 8,124,046
Construction in progress	160,785	7,457
	8,284,831	8,131,503
Capital assets being depreciated		
Infrastructure	18,368,346	17,615,827
Investment in regional facilities	3,224,421	3,223,499
	21,592,767	20,839,326
Less accumulated depreciation		
Infrastructure	(9,509,895)	(8,701,358)
Investment in regional facilities	(870,415)	(791,129)
	(10,380,310)	(9,492,487)
Depreciable capital assets, net	11,212,457	11,346,839
Capital assets, net	\$ 19,497,288	\$ 19,478,342

As previously noted, the District implemented GASBIG 2021-1, Question 5.1 during the current year. As a result, prior year data is not consistent with current year data due to the recognition of certain capital assets and the related accumulated depreciation at the beginning of the current fiscal year (See Notes 3 and 6).

Capital asset additions during the current year include water meters.

Construction in progress is for the District's pro-rata share of the construction improvements to a regional wastewater treatment plant (see Note 10).

Long-Term Debt

At February 28, 2025, and February 29, 2024, the District had total bonded debt outstanding as shown below:

Series	2025	2024
2014 Refunding	\$ 1,600,000	\$ 2,220,000
2015	3,685,000	3,940,000
2017 Refunding	3,830,000	3,990,000
2017	785,000	845,000
2019 Refunding	8,620,000	8,845,000
2021 Refunding	1,530,000	1,650,000
	\$ 20,050,000	\$ 21,490,000

At February 28, 2025, the District had authorized, but unissued unlimited tax and revenue bonds in the amount of \$1,325,000; authorized, but unissued unlimited tax and refunding bonds in the amount of \$365,000 and authorized, but unissued unlimited tax refunding bonds in the amount of \$16,571.

Next Year's Budget

In establishing the budget for the next fiscal year, the Board considered various economic factors that may affect the District, most notably projected revenues from property taxes, City of Houston sales tax rebates and water/sewer services and the projected cost of operating the District and providing services to customers. A comparison of next fiscal year's budget to current fiscal year actual amounts for the General Fund is as follows:

	2	2025 Actual		2025 Actual		026 Budget
Total revenues	\$	8,512,727	\$	8,484,380		
Total expenditures		(5,619,351)		(6,858,043)		
Revenues over expenditures		2,893,376		1,626,337		
Beginning fund balance		14,402,808		17,296,184		
Ending fund balance	\$	17,296,184	\$	18,922,521

Note 1 – Summary of Significant Accounting Policies

The accounting policies of Cimarron Municipal Utility District (the "District") conform with accounting principles generally accepted in the United States of America as promulgated by the Governmental Accounting Standards Board ("GASB"). The following is a summary of the most significant policies:

Creation

The District was organized, created and established pursuant to an order of the Texas Water Rights Commission, statutory predecessor to the Texas Commission on Environmental Quality, dated February 9, 1976, and operates in accordance with the Texas Water Code, Chapters 49 and 54. The Board of Directors held its first meeting on December 7, 1976, and the first bonds were issued on December 1, 1977.

The District's primary activities include construction, maintenance and operation of water, sewer and drainage facilities. The District has contracted with various consultants to provide services to operate and administer the affairs of the District. The District has no employees, related payroll or pension costs.

Reporting Entity

The District is a political subdivision of the State of Texas governed by an elected five-member board. The GASB has established the criteria for determining the reporting entity for financial statement reporting purposes. To qualify as a primary government, a government must have a separately elected governing body, be legally separate, and be fiscally independent of other state and local governments, while a component unit is a legally separate government for which the elected officials of a primary government are financially accountable. Fiscal independence implies that the government has the authority to adopt a budget, levy taxes, set rates, and/or issue bonds without approval from other governments. Under these criteria, the District is considered a primary government and is not a component unit of any other government. Additionally, no other entities meet the criteria for inclusion in the District's financial statements as component units.

Government-Wide and Fund Financial Statements

Government-wide financial statements display information about the District as a whole. These statements focus on the sustainability of the District as an entity and the change in aggregate financial position resulting from the activities of the fiscal period. Interfund activity, if any, has been removed from these statements. These aggregated statements consist of the *Statement of Net Position* and the *Statement of Activities*.

Fund financial statements display information at the individual fund level. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for a specific purpose. Each fund is considered to be a separate accounting entity. Most governments typically have many funds; however, governmental financial statements focus on the most important or "major"

funds with non-major funds aggregated in a single column. The District has three governmental funds, which are all considered major funds.

The following is a description of the various funds used by the District:

- <u>The General Fund</u> is used to account for the operations of the District's water and sewer system and all other financial transactions not reported in other funds. The principal sources of revenue are property taxes, City of Houston sales tax rebates and water and sewer service fees. Expenditures include costs associated with the daily operations of the District.
- <u>The Debt Service Fund</u> is used to account for the payment of interest and principal on the District's general long-term debt. The primary source of revenue for debt service is property taxes. Expenditures include costs incurred in assessing and collecting these taxes.
- <u>The Joint Water Plant Fund</u> is used to account for operation and maintenance of water plant no. 3, which is jointly owned by the District and Harris-Fort Bend Counties Municipal District No. 3. See Note 11 for more information.

As a special-purpose government engaged in a single governmental program, the District has opted to combine its government-wide and fund financial statements in a columnar format showing an adjustments column for reconciling items between the two.

Measurement Focus and Basis of Accounting

The government-wide financial statements use the economic resources measurement focus and the full accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flows. Property taxes are recognized as revenue in the year for which they are levied.

The fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenue is recognized in the accounting period in which it becomes both available and measurable to finance expenditures of the current period. For this purpose, the government considers revenues to be available if they are collected within sixty days of the end of the current fiscal period. Revenues susceptible to accrual include property taxes, City of Houston sales tax rebates, interest earned on investments and income from District operations. Property taxes and City of Houston sales tax rebates receivable at the end of the fiscal year are treated as deferred inflows because they are not considered available to pay liabilities of the current period. Expenditures are recognized in the accounting period in which the liability is incurred, if measurable, except for unmatured interest on long-term debt, which is recognized when due.

Note 2 further details the adjustments from the governmental fund presentation to the government-wide presentation.

Use of Restricted Resources

When both restricted and unrestricted resources are available for use, the District uses restricted resources first, then unrestricted resources as they are needed.

Prepaid Items

Certain payments made by the District reflect costs applicable to future accounting periods and are recorded as prepaid items in both the government-wide and fund financial statements.

Receivables

All receivables are reported at their gross value and, where appropriate, are reduced by the estimated portion that is expected to be uncollectible. Receivables from and payables to external parties are reported separately and are not offset, unless a legal right of offset exists. At February 28, 2025, an allowance of \$31,016 was provided for possible uncollectible property taxes. An allowance for uncollectible water/sewer accounts was not considered necessary.

Unbilled Service Revenues

Utility revenue is recorded when earned. Customers are billed monthly. The estimated value of services provided but unbilled at year-end has been included in the accompanying financial statements.

Interfund Activity

During the course of operations, transactions occur between individual funds. This can include internal transfers, payables and receivables. This activity is combined as internal balances and is eliminated in both the government-wide and fund financial statement presentation.

Capital Assets

Capital assets do not provide financial resources at the fund level, and, therefore, are reported only in the government-wide statements. The District defines capital assets as assets with an initial cost that exceeds the capitalization threshold for the asset class and an estimated useful life in excess of one year. Capital assets that individually are below the capitalization threshold but, in the aggregate, are above the threshold are capitalized. Subsequent replacements of these assets that do not exceed the threshold are not capitalized. The District's capitalization threshold for infrastructure assets is \$50,000. The threshold for subscription-based information technology arrangements (SBITAs) is \$100,000.

Capital assets are recorded at historical cost or estimated historical cost. Donated capital assets are recorded at acquisition value, which is the price that would be paid to acquire the asset on the acquisition date. The District has not capitalized interest incurred during the construction of its capital assets. The costs of normal maintenance and repairs that do not add to the value of the assets or materially extend asset lives are not capitalized.

Depreciable capital assets, which primarily consist of water, wastewater and drainage facilities, are depreciated using the straight-line method as follows:

Assets	Useful Life
Infrastructure	10-45 years
Investment in regional facilities	45 years

The District's detention facilities are considered improvements to land and are non-depreciable.

Deferred Inflows and Outflows of Financial Resources

A deferred inflow of financial resources is the acquisition of resources in one period that is applicable to a future period, while a deferred outflow of financial resources is the consumption of financial resources in one period that is applicable to a future period. A deferred inflow results from the acquisition of an asset without a corresponding revenue or assumption of a liability. A deferred outflow results from the use of an asset without a corresponding expenditure or reduction of a liability.

At the fund level, property taxes receivable and City of Houston sales tax rebates receivable that are not collected within 60 days of fiscal year end do not meet the availability criteria required for revenue recognition and are recorded as deferred inflows of financial resources.

Deferred outflows of financial resources at the government-wide level are from refunding bond transactions in which the amount required to repay the old debt exceeded the net carrying amount of the old debt. This amount is being amortized to interest expense.

Net Position – Governmental Activities

Governmental accounting standards establish the following three components of net position:

Net investment in capital assets – represents the District's investments in capital assets, less any outstanding debt or other borrowings used to acquire those assets.

Restricted – consists of financial resources that are restricted for a specific purpose by enabling legislation or external parties.

Unrestricted – resources not included in the other components.

Fund Balances – Governmental Funds

Governmental accounting standards establish the following fund balance classifications:

Nonspendable - amounts that cannot be spent either because they are in nonspendable form or because they are legally or contractually required to be maintained intact. The District's nonspendable fund balance consists of prepaid items and operating reserves paid to West Memorial Utility District and to the Joint Water Plant Fund for the joint water plant.

Restricted - amounts that can be spent only for specific purposes because of constitutional provisions or enabling legislation or because of constraints that are externally imposed by creditors, grantors, contributors, or the laws or regulations of other governments. The District's restricted fund balances consist of property taxes levied for debt service in the Debt Service Fund.

Committed - amounts that can be used only for specific purposes determined by a formal action of the Board of Directors. The Board is the highest level of decision-making authority for the District.

Commitments may be established, modified, or rescinded only through ordinances or resolutions approved by the Board. Committed fund balance also incorporates contractual obligations to the extent that existing resources in the fund have been specifically committed for use in satisfying those contractual requirements. The District does not have any committed fund balances.

Assigned - amounts that do not meet the criteria to be classified as restricted or committed but that are intended to be used for specific purposes. The District has not adopted a formal policy regarding the assignment of fund balances and does not have any assigned fund balances.

Unassigned - all other spendable amounts in the General Fund.

When an expenditure is incurred for which committed, assigned, or unassigned fund balances are available, the District considers amounts to have been spent first out of committed funds, then assigned funds, and finally unassigned funds.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and revenues and expenses/expenditures during the period reported. These estimates include, among others, the collectability of receivables, the value of unbilled utility revenues and receivables and the useful lives and impairment of capital assets. Estimates and assumptions are reviewed periodically, and the effects of revisions are reflected in the financial statements in the period they are determined to be necessary. Actual results could differ from the estimates.

Note 2 – Adjustment from Governmental to Government-wide Basis

Reconciliation of the Governmental Funds Balance Sheet to the Statement of Net Position

Total fund balance, governmental funds		\$	19,139,844
	29,877,598 10,380,310)		19,497,288
The difference between the face amount of bonds refunded and the amount paid to refund the bonds does not provide financial resources at the fund level and is recorded as a deferred outflow in the <i>Statement of Net Position</i> and amortized to interest expense.			262,021
Long-term liabilities are not due and payable in the current period and, therefore, are not reported as liabilities in the governmental funds. The difference consists of bonds payable, net.		(20,357,070)
Deferred inflows in the fund statements consist of receivables that are not available to pay current period expenditures. These amounts are included in revenues in the government-wide statements.			
Property taxes	349,883		
City of Houston sales tax rebates	76,828		
			426,711
Total net position - governmental activities	=	\$	18,968,794

Reconciliation of the *Governmental Funds Statement of Revenues, Expenditures and Changes in Fund Balances* to the *Statement of Activities*

Net change in fund balances - total governmental funds		\$ 2,651,871
Governmental funds do not report revenues that are not available to pay current obligations. In contrast, such revenues are reported in the <i>Statement of Activities</i> when earned. The difference is for the following: Property taxes City of Houston sales tax rebates	\$ 62,305 (9,016)	53,289
Financial reporting for capital assets varies significantly between the fund statements and the government-wide statements. Reporting at the fund level focuses on the impact of transactions on financial resources (i.e., cash), while reporting at the government-wide level seeks to allocate the cost of the acquisition of capital assets over their useful lives. Differences during the current fiscal year are for the following: Capital outlays Depreciation expense	154,250 (525,542)	(371,292)
Financial reporting for certain obligations varies between the fund statements and the government-wide statements. At the fund level, the focus is on increases and decreases of financial resources as debt is issued and repaid. At the government-wide level, the focus is on measuring and reporting on changes in the District's obligation to repay liabilities in the future. Differences during the current fiscal year are for the following: Principal payments Interest expense accrual	 1,440,000 (3,811)	1,436,189
Change in net position of governmental activities		\$ 3,770,057

Note 3 – Implementation of New Accounting Guidance

During the current fiscal year, the District implemented GASB Implementation Guide ("GASBIG") 2021-1, Question 5.1, which requires the capitalization of the acquisition of a group of individual capital assets whose individual acquisition costs are less than the capitalization threshold when the cost of the acquisition of the assets in the aggregate is significant. Under this new guidance, the District's acquisition of water meters that exceeds the capitalization threshold in the aggregate should be recorded as Capital outlays instead of Contracted services in the *Statement of Revenues, Expenditures and Changes in Fund Balances.* On the government-wide statements, the acquisition of water meters should not be recorded as an expense on the *Statement of Activities* but should be recorded as capital assets on the *Statement of Net Position.*

GASBIG 2021-1, Question 5.1 is required to be retroactively implemented, which means the District is required to record the acquisition of water meters that were expensed in previous fiscal years as infrastructure capital assets and to record the related accumulated depreciation at the beginning of the current fiscal year. Accordingly, the District has recorded a restatement to recognize \$390,238 in depreciable capital assets, which were measured at net book value (i.e., cost less accumulated depreciation) as of the beginning of the current fiscal year and increased its beginning net position by the same amount. Prior year amounts in the Management's Discussion and Analysis and supplementary schedules were not restated.

Note 4 – Deposits and Investments

Deposit Custodial Credit Risk

Custodial credit risk as it applies to deposits (i.e. cash and certificates of deposit) is the risk that, in the event of the failure of the depository institution, a government will not be able to recover its deposits or will not be able to recover collateral securities. The *Public Funds Collateral Act* (Chapter 2257, Texas Government Code) requires that all of the District's deposits with financial institutions be covered by federal depository insurance and, if necessary, pledged collateral held by a third-party custodian. The act further specifies the types of securities that can be used as collateral. The District's written investment policy establishes additional requirements for collateralization of deposits.

Investments

The District is authorized by the *Public Funds Investment Act* (Chapter 2256, Texas Government Code) to invest in the following: (1) obligations, including letters of credit, of the United States or its agencies and instrumentalities, including Federal Home Loan Banks, (2) direct obligations of the State of Texas or its agencies and instrumentalities, (3) certain collateralized mortgage obligations, (4) other obligations, which are unconditionally guaranteed or insured by the State of Texas or the United States or its agencies or instrumentalities, including obligations that are fully guaranteed or insured by the Federal Deposit Insurance Corporation or by the explicit full faith and credit of the United States, (5) certain A rated or higher obligations of states and political subdivisions of any state, (6) bonds issued, assumed or guaranteed by the State of Israel, (7) certain insured or collateralized certificates of deposit and share certificates, (8) certain fully collateralized repurchase agreements, (9) bankers' acceptances with limitations, (10) commercial paper rated A-1 or P-1 or higher and a maturity of 270 days or less, (11) no-load money market mutual funds and no-load mutual funds, with limitations, (12) certain guaranteed investment contracts, (13) certain qualified governmental investment pools and (14) a qualified securities lending program.

The District has adopted a written investment policy to establish the principles by which the District's investment program should be managed. This policy further restricts the types of investments in which the District may invest.

Туре	Fund	Carrying Value	Percentage of Total	Rating	Weighted Average Maturity
Certificates of deposit	General Debt Service	\$ 1,645,000 470,000			<u>.</u>
	Debt Service	470,000 2,115,000		N/A	N/A
Texas CLASS	General	14,190,441			
	Debt Service	1,288,026	_		
		15,478,467	88%	AAAm	48 days
Total		\$ 17,593,467	100%		

As of February 28, 2025, the District's investments consist of the following:

The District's investments in certificates of deposit are reported at cost.

Texas CLASS

The District participates in Texas Cooperative Liquid Assets Securities System (Texas CLASS). Texas CLASS is managed by an elected Board of Trustees consisting of members of the pool. Additionally, the Board of Trustees has established an advisory board, the function of which is to provide guidance on investment policies and strategies. The Board of Trustees has selected Public Trust Advisors, LLC as the program administer and UMB Bank N.A., as the custodian.

The District's investment in Texas CLASS is reported at fair value because Texas CLASS uses fair value to report investments (other than repurchase agreements which are valued at amortized cost). Governmental accounting standards establish the following hierarchy of inputs used to measure fair value: Level 1 inputs are based on quoted prices in active markets, Level 2 inputs are based on significant other observable inputs, and Level 3 inputs are based on significant unobservable inputs. The District's investment in Texas CLASS is measured using published fair value per share (level 1 inputs).

Investments in Texas CLASS may be withdrawn via wire transfer on a same day basis, as long as the transaction is executed by 4 p.m. ACH withdrawals made by 4 p.m. will settle on the next business day.

Investment Credit and Interest Rate Risk

Investment credit risk is the risk that the investor may not recover the value of an investment from the issuer, while interest rate risk is the risk that the value of an investment will be adversely affected by changes in interest rates. The District's investment policies do not address investment credit and interest rate risk beyond the rating and maturity restrictions established by state statutes.

Note 5 – Interfund Balances and Transactions

Amounts due to/from other funds at February 28, 2025, consist of the following:

Receivable Fund	Payable Fund	A	mounts	Purpose
General Fund	Debt Service Fund	\$	25,831	Maintenance tax collections not remitted as of year end
Joint Water Plant Fund	General Fund		283,004	Participant billings not remitted as of year end

Amounts reported as internal balances between funds are considered temporary balances and will be paid during the following fiscal year.

Note 6 - Capital Assets

A summary of changes in capital assets, for the year ended February 28, 2025, is as follows:

		Beginning Balances	1	Additions	Ending Balances
Capital assets not being depreciated					
Land and improvements	\$	8,124,046	\$	-	\$ 8,124,046
Construction in progress		7,457		153,328	160,785
	_	8,131,503		153,328	 8,284,831
Capital assets being depreciated					
Infrastructure		18,368,346			18,368,346
Investment in regional facilities		3,223,499		922	3,224,421
		21,591,845		922	21,592,767
Less accumulated depreciation					
Infrastructure		(9,063,639)		(446,256)	(9,509,895)
Investment in regional facilities		(791,129)		(79,286)	 (870,415)
		(9,854,768)		(525,542)	 (10,380,310)
Subtotal depreciable capital assets, net		11,737,077		(524,620)	 11,212,457
Capital assets, net	\$	19,868,580	\$	(371,292)	\$ 19,497,288

Depreciation expense for the current fiscal year was \$525,542.

As discussed in Note 3, the District recorded a restatement to capitalize the acquisition of certain capital assets and accumulated depreciation at the beginning of the current fiscal year. In previous years, these costs were expensed. As a result, beginning balances for infrastructure capital assets in the current fiscal year are not consistent with prior year data.

Note 7 – Long-Term Debt

Long-term debt is comprised of the following:

Bonds payable	\$ 20,050,000
Unamortized discounts	(71,897)
Unamortized premiums	 378,967
	\$ 20,357,070
Due within one year	\$ 1,485,000

The District's bonds payable at February 28, 2025, consists of unlimited tax bonds as follows:

		Maturity Date,					
				Serially,	Interest		
	Amounts	Original	Interest	Beginning/	Payment	Call	
Series	Outstanding	Issue	Rates	Ending	Dates	Dates	
2014	\$ 1,600,000	\$ 6,585,000	2.00% - 3.125%	March 1,	September 1,	March 1,	
Refunding				2015/2031	March 1	2023	
2015	3,685,000	5,790,000	2.00% - 3.250%	March 1,	September 1,	March 1,	
				2016/2036	March 1	2024	
2017	3,830,000	4,155,000	2.76%	March 1,	September 1,	March 1,	
Refunding				2018/2031	March 1	2025	
2017	785,000	1,215,000	2.00% - 4.50%	March 1,	September 1,	March 1,	
				2018/2036	March 1	2025	
2019	8,620,000	9,655,000	4.00%	March 1,	September 1,	March 1,	
Refunding				2020/2036	March 1	2029	
2021	1,530,000	2,400,000	2.00% - 3.00%	March 1,	September 1,	March 1,	
Refunding				2022/2036	March 1	2028	
	\$ 20,050,000						

Payments of principal and interest on all series of bonds are to be provided from taxes levied on all properties within the District. Investment income realized by the Debt Service Fund from investment of idle funds will be used to pay outstanding bond principal and interest. The District is in compliance with the terms of its bond resolutions.

At February 28, 2025, the District had authorized but unissued unlimited tax and revenue bonds in the amount of \$1,325,000; authorized but unissued unlimited tax and refunding bonds in the amount of \$365,000; and authorized but unissued unlimited tax refunding bonds in the amount of \$16,571.

The change in the District's long-term debt during the year is as follows:

Bonds payable, beginning of period	\$ 21,490,000
Bonds retired	 (1,440,000)
Bonds payable, end of period	\$ 20,050,000

The debt service payment due March 1 was made during the current fiscal year. The following schedule was prepared presuming this practice will continue. As of February 28, 2025, annual debt service requirements on bonds outstanding are as follows:

Year	Principal	Interest	Totals
2026	\$ 1,485,000	\$ 672,545	\$ 2,157,545
2027	1,530,000	627,514	2,157,514
2028	1,590,000	581,014	2,171,014
2029	1,655,000	532,717	2,187,717
2030	1,720,000	483,888	2,203,888
2031	1,770,000	432,733	2,202,733
2032	1,885,000	379,705	2,264,705
2033	1,970,000	310,544	2,280,544
2034	2,060,000	238,037	2,298,037
2035	2,145,000	162,087	2,307,087
2036	2,240,000	82,850	2,322,850
	\$ 20,050,000	\$ 4,503,634	\$ 24,553,634

Note 8 – Property Taxes

On January 25, 1977, the voters of the District authorized the District's Board of Directors to levy taxes annually for use in financing general operations limited to \$0.25 per \$100 of assessed value. The District's bond resolutions require that property taxes be levied for use in paying interest and principal on long-term debt and for use in paying the cost of assessing and collecting taxes. Taxes levied to finance debt service requirements on long-term debt are without limitation as to rate or amount.

All property values and exempt status, if any, are determined by the Harris Central Appraisal District and the Fort Bend Central Appraisal District. Assessed values are determined as of January 1 of each year, at which time a tax lien attaches to the related property. Taxes are levied around October/November, are due upon receipt and are delinquent the following February 1. Penalty and interest attach thereafter.

Property taxes are collected based on rates adopted in the year of the levy. The District's 2025 fiscal year was financed through the 2024 tax levy, pursuant to which the District levied property taxes of \$0.28 per \$100 of assessed value, of which \$0.155 was allocated to maintenance and operations and \$0.125 was allocated to debt service. The resulting tax levy was \$4,481,021 on the adjusted taxable value of \$1,600,364,706.

Net property taxes receivable, at February 28, 2025, consisted of the following:

Current year taxes receivable	\$ 209,948
Prior years taxes receivable	109,282
Less allowance for uncollectible accounts	(31,016)
	288,214
Penalty and interest receivable	61,669
Net property taxes receivable	\$ 349,883

Note 9 – Strategic Partnership Agreement

Effective April 10, 2003, as subsequently amended, the District and the City of Houston (the "City") entered into a Strategic Partnership Agreement (the "Agreement") under which the City annexed certain commercial areas of the District for the limited purposes of applying the City's planning, zoning, health and safety ordinances within the District. The District continues to exercise all powers and functions of a municipal utility district. As consideration for the District providing services described in the Agreement, the City agreed to remit one half of all retail sales taxes collected from retailers in the area annexed. The City agrees that it will not annex all or part of the District during the term of this agreement which is thirty years. During the current year, the District recognized \$1,171,261 in City of Houston sales tax revenues.

Note 10 - Financing and Operation of Regional Facilities

On August 30, 1983, as subsequently amended, the District entered into a forty-year agreement with West Memorial Municipal Utility District ("West Memorial"), Interstate Municipal Utility District, Mason Creek Utility District and Harris County Municipal Utility District No. 81, whereby West Memorial agreed to provide the regional wastewater treatment and disposal facilities necessary to serve the participants. West Memorial has oversight responsibilities and holds title to the facilities for the benefit of the participating Districts. Upon expiration of the initial term, the contract will continue in force and effect for an additional one-year terms. The following table presents each participant's capacity and percentage of ownership as per the agreement:

	Million Gallons	Percent of
Participant	Capacity	Ownership
Cimarron Municipal Utility District	2,500,000	38.61%
Interstate Municipal Utility District	1,350,000	20.85%
Harris County Municipal Utility District No. 81	1,255,000	19.38%
Mason Creek Utility District	800,000	12.36%
West Memorial Municipal Utility District	570,000	8.80%
Totals	6,475,000	100.00%

On January 25, 1994, the District sold 29,000 gpd of capacity to West Memorial, which reduced its percent of ownership to 38.16%. The agreement was not amended to reflect the change in capacity.

Cimarron Municipal Utility District Notes to Financial Statements February 28, 2025

West Memorial operates the regional facilities. Participants are billed monthly based on a contractual formula. During the current year, the District recorded expenditures in the amount of \$926,854 for its share of operating costs. In addition, the District is responsible for its pro rata share of an operating and maintenance reserve, which is equivalent to three months of average budgeted operating and maintenance expenditures. As of February 28, 2025, the District's share of the operating reserve is \$237,984.

Audited financial statements for the wastewater treatment plant are prepared annually and can be obtained from West Memorial's attorney. Condensed financial information, as of and for the year ended June 30, 2024, is shown below:

Total Assets	\$ 709,658
Total Liabilities	\$ 161,232
Total Fund Balance - Restricted	548,426
Total Liabilities and Fund Balance	\$ 709,658
Total Revenues	\$ 2,407,612
Total Expenditures	 (2,407,612)
Revenues Over Expenditures	
Other Financing Sources - Increase in Operating Reserve	 41,313
Net Change in Fund Balance	41,313
Fund Balance, Beginning of Year	 507,113
Fund Balance, End of Year	\$ 548,426

Note 11 – Joint Water Supply Agreement

On November 17, 2010, the District entered into a Joint Water Plant Operating Agreement, ("the "Agreement") with Harris-Fort Bend Counties Municipal District No. 3 ("HFB MUD 3") for allocation of costs associated with the operation and maintenance of a joint water plant. The District shall hold legal title for the water plant for the benefit of both districts. Each district shall have an undivided equitable interest in the water plant based on the district's proportionate share of equivalent single-family connections. The District has a 65.04% interest in the water plant and HFB MUD 3 has a 34.96% interest in the water plant.

Pursuant to the Agreement, the District has established the Joint Water Plant Fund, a special revenue fund, to account for activities related to the operation and maintenance of the joint water plant. Each district is billed monthly for its proportionate share of maintenance and operating expenditures. For the year ended February 28, 2025, the District's share of the water service billings were \$2,298,017 and HFB MUD 3's share of the water service billings were \$74,315. As of February 28, 2025, the District's and HFB MUD 3's operating reserves are \$644,902 and \$63,668, respectively.

Cimarron Municipal Utility District Notes to Financial Statements February 28, 2025

Note 12 - West Harris County Regional Water Authority

The District is within the boundaries of the West Harris County Regional Water Authority (the "Authority"), which was created by the Texas Legislature. The Authority is a political subdivision of the State of Texas, governed by an elected nine-member Board of Directors. The Authority was created to provide a regional entity to acquire surface water and build the necessary facilities to convert from groundwater to surface water in order to meet conversion requirements mandated by the Harris-Galveston Coastal Subsidence District, which regulates groundwater withdrawal. As of February 28, 2025, the Authority's rates are \$3.95 per 1,000 gallons of water pumped from the District's wells and \$4.35 for surface water supplied to the District. These rates are subject to future increases. The District passes these costs on to its customers.

Note 13 – Risk Management

The District is exposed to various risks of loss related to torts: theft of, damage to and destruction of assets; errors and omissions; and personal injuries. The risk of loss is covered by commercial insurance. There have been no significant reductions in insurance coverage from the prior year. Settlement amounts have not exceeded insurance coverage for the current year or the three prior years.
